NO 2 1980 & 23 & 25

In connection with the shifting
of the yadotah Tamen and the formation
of the New Tamen, I recommend sanction
for bearing the entire cost of the layout
from State Funds and deposits that at least
an advance of Rs 10,000/- may be sanctioned
for the current year (1944-45) for immediate
expenditure.

The file containing the
entire correspondence on the subject of
the formation of the New Tamen of yadotah
has been taken for reference by the J & C.
Branch of the Revenue Dept for submission
to the D. C. in connection with the
question of granting a loan to the local
Co-operative Society for financing the officers
poor of the locality.

The present proposal of the
Deputy Comm. is for consideration.

The townspeople also want
a grant to supply to the

worked up in the budget file. The
first may have to give a grant for

Sir,

I have the honour to state, ^{that} in connection with the formation of the new town of Yedatore, it was resolved by the Municipal Council of Yedatore at a Special Meeting held on 31st March 25 that the Government be requested to bear the entire cost of laying out the town including the cost of drains, roads and wells and to provide a sum of Rs. 10,000 in the current year's budget. In submitting herewith an extract from the Council's proceedings, I have the honour to recommend, ^{that} as the town has to be shifted owing to floods and the construction of the Krishnarajasagara, that sanction of Government may be kindly obtained for bearing the entire cost of the lay out from State funds and to request that at least an advance of Rs. 10,000 ^{may kindly} be sanctioned this year subject to adjustment next year, if the Budget grant for the current year is exhausted.

The Executive Engineer, Water Supply and Construction Division is preparing the plan for the lay out and it will be ready in another fortnight. It is necessary to allot sites at least before the next rains.

I have the honour to be,

It was resolved that the Government may be requested to bear the entire cost of laying out the town including the cost of drains, roads and wells and that they may also be requested to provide a sum of Rs 10,000/- (ten thousand) in the current year's Budget. It was represented by many of the poorer inhabitants who lost their houses during the last flood and who are still living in sheds that the working out of roads and wells and the sinking of at least half dozen wells should be completed before the flood season to enable them to put up at least sheds for the present at the new sites.

Sir,

With reference to your letter No I 23 / 1 13 -24-14 dated the 15th May 25 calling for certain information in the matter of granting a minimum advance of Rs 10,000 for the current year for implemting the scheme respecting the New Yedlole Town, I have the honour to state that the advance asking for the above advance will not to treat it as an advance to be recouped from the fund of the Municipality. The proposal is that a grant may be made from the provision made in the State budget on account of the improvements of Municipal towns etc, that if the current year's provision has been already exhausted, an advance may be made from the State Funds subject to adjustment from the provision to be made in the next year's State budget for the improvement of Municipal areas.

✓ The amount that is available at the credit of the Council has been made available for meeting the cost of acquisition of lands for the new Town and the Council has undertaken to meet the entire cost of acquisition. The grant from State funds is required for meeting the cost of laying

out the New Town including the cost of drains, roads and wells. The Public Works Department has already started the work of taking levels and funds are required immediately to meet the outlay incidental to the lay out of sites etc.

8) As the current official year is drawing to a close and as it is not likely an outlay to the extent of Rs. 10,000 will be possible before the 30th June 25, I request that a small grant or advance of Rs. 2000 at least may kindly be sanctioned to meet the cost of marking out sites and other charges relating thereto so that sites may be available at least before the next floods.

6) The plan and the estimates for laying out the new Yedatore Town are under preparation and the estimated cost of the scheme will be reported to Government after the estimate is ready and a separate application made for further grant.

9) As the entire cost of acquisition has to be borne by the Council, the sale proceeds of the sites will be credited to the Municipal Fund and it will be available for other items of expenditure connected with the New Town.
